

*We are looking for a motivated campaigner to ensure our vision is spread and understood!*

## What's in it for you?

- Work in a highly motivated and fast moving start-up team!
- Shape the communication campaign of a start-up with your own ideas!
- Collaborate and learn from our leading external experts in PR and communications!
- Paid internship with long term employment opportunity!
- Deep dive into the Berlin and global start-up scene!

## Your tasks

We will campaign for public support (via online votes) in a major international social entrepreneurship venture competition starting this May.

We need your support in:

- Conceptualising communications campaigns, your ideas are welcome!
- Implementing communications (press releases, web and social media)
- On-site support at events (i.e. tradeshow, venture competitions, ...)
- Campaign planning, execution, evaluation and learning
- Start: Asap, in May 2016, for at least 3 months full-time

## Your profile

- Background / professional experience in communications, PR or marketing
- High proficiency in English, German proficiency is an advantage
- Driven, reliable, good level of self-organisation, team player, fun person!

## About Coolar

At Coolar we turn the problem into the solution – the sun's heat. Our innovative technology cools by using heat energy! We are working hard to revolutionise the way of cooling with this game changing technology. The Coolar technology enables cooling without electricity. Also, we make sure our product puts a significantly lower burden on the environment and can realise a high social impact.

Our team currently consists of five co-founders and a range of motivated interns, coaches and consultants. Coolar started in 2014. Its founders were recently recognised by the Forbes 30 under 30 list, Darboven IDEE female entrepreneurship award and are invited as speakers to conferences around the world such as in Singapore and India.
