

Dear Ladies and Gentlemen,
Dear friends and partners of the Environmental Policy Research Centre (FFU),

it is obvious that there are rapid changes in our environment, not only in the economic and social spheres, but also in various and ever-changing eco systems.

FFU's comparative and international research into environmental policy and politics has analyzed these changes for the past 30 years.

We are celebrating this anniversary and would like to kindly invite you to our anniversary conference on **April 26th, 2016**. We will provide a forum for thought, before, during, and after the day itself.

Our 30-year anniversary is an opportunity to look ahead.

“Future of environmental politics -environmental politics for the future“

is the anniversary's motto. We will present results of our work, accompanied by renowned experts. This will provide perspectives on environmental research from a political science view.

Please save the date:
