Intro	Hello, my name is xx. I am a working for the Institute of Media and Communication Studies which belongs to the Free University of Berlin. We are currently conducting a research project on the media use of refugees. In this context, we are interested in your individual media use in your home country, during your escape and in Germany. We would also like to know a little bit about how you expect your life to be here in Germany and how you would assess your current situation. For this purpose, we are interviewing refugees like you and would be very happy if you are willing to participate. The interview will take approximately 45 minutes. The information you give us will be analyzed completely anonymously, which means that nobody will be able to know what you answered. Thus, the data will for instance be presented as follows: 160 out of 400 participants answered that they used a mobile phone during their escape. That way nobody can connect answers to individual participants. Needless to say, your personal answers will not be forwarded to any state institution and will not have any influence on your status as a refugee. We believe that it is important to know much more about the developments currently taking place in this world and are convinced that research can contribute to creating		
	such knowledge. If you have any more questions regarding the project, please let me know So are you
