ABOUT

Our Research

The diffusion of ideas has become a central research theme in political science, sociology, law, history, and economics. In this context, the *Kolleg-Forscherguppe* (KFG) focuses on how ideas are spread across time and space, as can be observed especially in the European Union in various socio-political fields.

The Kolleg-Forscherguppe (KFG) is a new funding program launched by the German Research Foundation (Deutsche Forschungsgemeinschaft – DFG) in 2008. As a Research College, it is intended to provide a scientifically stimulating environment in which innovative research topics can be dealt with by discourse and debate within a small group of senior and junior researchers.

This event is supported by the DAAD alumni programme with funds of the German Federal Foreign Office.
