New Routledge Title!

Social Cohesion in European Societies

Conceptualising and Assessing Togetherness

Bujar Aruqaj, Freie Universita't Berlin, Germany

Series: Routledge Advances in Sociology

This book explains the concept of social cohesion in the context of a comparative sociological study.

It proposes an innovative approach to the measurement of social cohesion, considering as constitutive elements social trust, institutional trust, and societies' degree of openness. This book provides an analysis of social cohesion not only between, but also within European societies. It will appeal to students and scholars interested in solidarity and social integration working in sociology, social psychology and development studies.
