Horizontal Europeanisation

The Transnationalisation of Daily Life and Social Fields in Europe

Edited by **Martin Heidenreich**, University of Oldenburg, Germany

Series: Routledge Advances in Sociology

This book focuses on processes of Europeanisation in the academic, bureaucratic, professional and associational field, and the increasingly European context of solidarity, networks and social inequalities. Drawing on detailed empirical studies and attending to the reinforcement of centre-periphery structures in Europe, it analyses the dynamics of 'horizontal Europeanisation' processes, highlighting the crucial role of national practices and perceptions in a transnational context, as well as the related conflicts between the winners and losers in this process.
